TO WHOM IT MAY CONCERN

I am please to provide a reference to **R. O. STEEL ROOFING PTY. LTD.**

This letter is to inform future clients about the ability of the above company to perform the task of Removing and Re-Roofing existing and new buildings.

R. O. Steel Roofing Pty. Ltd. have carried out numerous roofing projects for the Roads and Traffic Authority, the largest job being the complete removal and re-sheeting of Asbestos contaminated roof sheeting and all associated cappings etc. from B.M.E. Services Workshops situated at Unwin Street, Granville. All works were carried out while the Building was occupied and the whole project was monitored by the R.T.A. Safety Committee and Workcover Inspectors.

All works were carried out to a very high standard and progressed smoothly from start to finish with no problems being experienced.

It was obvious to all concerned with this project that R. O. Steel Roofing Pty. Ltd. have accumulated vast experience in this particular type of Re-Roofing work and it reflected in their work.

Therefore I have no hesitation in recommending the services of this company to any persons or firms requiring any type of re-roofing work especially if it is Asbestos related.

Yours faithfully,

A handwritten signature in blue ink, appearing to read 'Ange Fenech', with a long, sweeping flourish extending to the right.

ANGE FENECH
